

ALLU SURYA NAGA SAI TARUN

Core Java · OOP · JDBC · MySQL · Backend Development

PROFILE

Motivated Java Developer with a Master of Computer Applications from Andhra University. Strong foundation in Core Java, JDBC, MySQL, SQL, Object-Oriented Programming, Multithreading, and backend application development. Passionate about building scalable, maintainable software using clean coding practices and continuously enhancing technical skills through hands-on project development.

TECHNICAL SKILLS

Programming	Java, SQL
Core Java	OOP, Collections Framework, Exception Handling, File Handling, Multithreading, Lambda Expressions, Stream API, Generics, Arrays, Strings, Wrapper Classes, Enums, Interfaces, Abstract Classes
Database / Backend	JDBC, MySQL, SQL, PreparedStatement, CRUD Operations, Transactions
Frontend	HTML5, CSS3, Bootstrap, Responsive Web Design, Flexbox
Tools	Git, IntelliJ IDEA, Eclipse, VS Code
Engineering Concepts	Data Structures, Algorithms, Debugging, Input Validation, Clean Code, Modular Programming

PROJECTS

Banking Management System

Java · JDBC · MySQL · OOP

A modular banking application covering the complete account lifecycle, from authentication and account creation to transactions and history.

Account creation, authentication, deposits, withdrawals, fund transfers, balance enquiry, and transaction history.

MySQL integration through JDBC and PreparedStatement for secure database operations.

Object-Oriented Programming through modular class design.

Input validation and exception handling to improve application reliability.

Reusable DAO classes for organized database operations.

Custom Java Collections Framework

Core Java

Custom implementations exploring the mechanics behind familiar data structures, rather than only consuming the standard APIs.

Custom ArrayList, LinkedList, HashMap, Stack, and Queue implementations.

Hashing, collision handling, linked node structures, and dynamic resizing.

Modular test classes for each implementation and a deeper understanding of collection internals.

Student Management System

Java · JDBC · MySQL

A CRUD application for registration, search, update, and deletion of student records.

Student registration, search, update, and deletion functionalities.

MySQL integration using JDBC for persistent data storage.

Modular programming and validation for efficient record management.

Library Management System

Java · JDBC · MySQL

Book and member management with issue, return, search, and fine calculation features.

Book issue, return, search, and fine calculation features.

MySQL-backed book and member records through JDBC.

Object-oriented design for maintainable code.

Employee Management System

Java · JDBC · MySQL

A layered employee management application with CRUD operations and department workflows.

Employee search, department management, salary updates, and validation.

Layered architecture with JDBC and MySQL for persistent data management.

Expense Tracker

Java · Collections Framework · Stream API · Lambda Expressions

An in-memory expense tracker that turns daily entries into monthly and category-wise reports.

Daily expense recording with monthly and category-wise reports.

Java Streams and Lambda Expressions for filtering and data processing.

Collections Framework for efficient in-memory data management.

PROFESSIONAL EXPERIENCE

Associate — Concentrix

May 2022 — Aug 2023

Supported banking customers by resolving account-related queries in a high-volume environment. Strengthened analytical thinking, communication, and problem-solving skills while gaining exposure to banking workflows and customer operations.

Certified Internet Consultant — Just Dial

Oct 2021 — May 2022

Consulted businesses on digital products and technology solutions. Conducted product demonstrations and gathered customer requirements, developing strong communication and client relationship management skills.

EDUCATION

Master of Computer Applications (MCA)

2024 — 2026 · CGPA: 9.10 / 10

Andhra University

Bachelor of Science (MECS)

2018 — 2023 · CGPA: 7.13 / 10

Aditya Degree College

CERTIFICATIONS

Java Programming Masterclass — Udemy

Java Programming — SoloLearn

Build Your Own Static Website — NxtWave Intensive
(HTML5, CSS3, Bootstrap)

Build Your Own Responsive Website — NxtWave
Intensive (Bootstrap, Flexbox)

ACHIEVEMENTS

First Prize — College Science Day PPT Competition

Second Prize — State-Level Electronics Project
Competition

Participant — National Service Scheme (NSS) Camp
