

ALLU SURYA NAGA SAI TARUN

Java Software Engineer

Tuni, Andhra Pradesh | +91-9676561932 | saitarun1932@gmail.com

PROFILE

Motivated Java Developer with a Master of Computer Applications from Andhra University. Strong foundation in Core Java, JDBC, MySQL, SQL, Object-Oriented Programming, Multithreading, and backend application development. Passionate about building scalable, maintainable software using clean coding practices and continuously enhancing technical skills through hands-on project development.

TECHNICAL SKILLS

Programming Languages: Java, SQL

Core Java: Object-Oriented Programming (OOP), Collections Framework, Exception Handling, File Handling, Multithreading, Lambda Expressions, Stream API, Generics, Arrays, Strings, Wrapper Classes, Enums, Interfaces, Abstract Classes

Advanced Java: JDBC

Database: MySQL, SQL, PreparedStatement, CRUD Operations, Transactions

Frontend: HTML5, CSS3, Bootstrap, Responsive Web Design, Flexbox

Tools: Git, IntelliJ IDEA, Eclipse, VS Code

Concepts: Data Structures, Algorithms, Debugging, Input Validation, Clean Code, Modular Programming

PROJECTS

Banking Management System

Technologies: Java, JDBC, MySQL, OOP

- Developed a banking application supporting account creation, authentication, deposits, withdrawals, fund transfers, balance enquiry, and transaction history.
- Integrated MySQL using JDBC and PreparedStatement for secure database operations.
- Applied Object-Oriented Programming principles through modular class design.
- Implemented input validation and exception handling to improve application reliability.
- Organized database operations using reusable DAO classes.

Student Management System

Technologies: Java, JDBC, MySQL

- Developed a CRUD application for managing student records.
- Implemented student registration, search, update, and deletion functionalities.
- Integrated MySQL using JDBC for persistent data storage.
- Applied modular programming and validation for efficient record management.

Library Management System

Technologies: Java, JDBC, MySQL

- Developed a library management system for managing books and member records.
- Implemented book issue, return, search, and fine calculation features.
- Connected the application with MySQL using JDBC.
- Followed object-oriented design principles for maintainable code.

Employee Management System

Technologies: Java, JDBC, MySQL

- Developed an employee management application supporting CRUD operations.
- Implemented employee search, department management, salary updates, and validation.
- Structured the application using a layered architecture.
- Used JDBC and MySQL for persistent data management.

Expense Tracker

Technologies: Java, Collections Framework, Stream API, Lambda Expressions

- Developed an expense tracking application for recording daily expenses.
- Generated monthly and category-wise expense reports.
- Used Java Streams and Lambda Expressions for filtering and data processing.
- Leveraged the Collections Framework for efficient in-memory data management.

Custom Java Collections Framework

Technologies: Core Java

- Implemented custom versions of ArrayList, LinkedList, HashMap, Stack, and Queue.
- Explored hashing, collision handling, linked node structures, and dynamic resizing.
- Strengthened understanding of Java Collection Framework internals.
- Tested each implementation using modular test classes.

PROFESSIONAL EXPERIENCE

Concentrix

May 2022 – Aug 2023

Associate

- Supported banking customers by resolving account-related queries in a high-volume environment.
- Strengthened analytical thinking, communication, and problem-solving skills.
- Gained exposure to banking workflows and customer operations.

Just Dial

Oct 2021 – May 2022

Certified Internet Consultant

- Consulted businesses on digital products and technology solutions.
- Conducted product demonstrations and gathered customer requirements.
- Developed strong communication and client relationship management skills.

EDUCATION

Master of Computer Applications (MCA)

2024 – 2026

Andhra University

CGPA: 9.10 / 10

Bachelor of Science (MECS)

2018 – 2023

Aditya Degree College

CGPA: 7.13 / 10

CERTIFICATIONS

- **Java Programming Masterclass** – Udemy
- **Java Programming** – SoloLearn
- **Build Your Own Static Website** – NxtWave Intensive (HTML5, CSS3, Bootstrap)
- **Build Your Own Responsive Website** – NxtWave Intensive (Bootstrap, Flexbox)

ACHIEVEMENTS

- **First Prize** – College Science Day PPT Competition
- **Second Prize** – State-Level Electronics Project Competition
- **Participant** – National Service Scheme (NSS) Camp
